# By-Laws for The Conduct of Matches

**By-Laws** - These by-laws are made pursuant to Rule 26 sub-clause 11, and generally of the Association Constitution Rules. Referred to as "Association" herein.

- c) The Executive may change any item in the Appendices.

## 2. COURTS

- a) The type, condition and surroundings of each competing Club's courts shall be subject to the approval of the Executive.
- b) A match can be played on 2 different court surfaces as long as the Home Convenor and Away Teams supervising parent for juniors agree and both team captains for seniors agree. Finals matches can only be played on 1 court surface.
- c) The executive may request any Club to make repairs to their courts and surroundings that they deem necessary.
- d) Any club failing to make such repairs, to the satisfaction of the Executive, may be suspended from the Association.
- e) The provision of an alternative venue must be approved by the Executive.

## 3. COMPETITIONS

The executive shall arrange all competition-play and at all times, determine the days, dates and formats, as detailed in Appendices A & C.

#### **4. ENTERING TEAMS**

- a) Each club may enter any number of teams in any Association competition up to a maximum of two (2) teams for each court available i.e. a minimum of one court per home team.
- b) Teams must be submitted on or before the closing date for entries as determined and advised by the Executive. Teams must be entered using Online entry only. Each Club is required to nominate the Competition format plus grade or section in which it desires to enter a team. The Executive reserves the right to grade any team as it sees fit.
- c) Team entries may not be accepted, if not accompanied by team entry fees and any outstanding monies owed to the Association.
- d) All players listed in teams, when graded by the Executive, cannot play in any lower grade, without prior permission of the Executive.

#### **5. REGISTRATION**

- a) Prior to the commencement of each season, Clubs must register all team members using the On-line team entry.
- b) Additional registrations during a season must be submitted on the official emergency registration section of the result card and entered on-line on the ERT web site. Failure to do so will incur a penalty. Appendix J(s).
- c) No player may be registered with more than one Club in any one defined competition. Defined competitions are Saturday AM; Saturday PM; Sunday AM; Sunday PM.
- d) If a player is registered by more than one Club, affiliation will be determined by the first match played.
- e) The registration of a player may be refused or revoked by the Executive for disciplinary reasons or breach of by-laws.
- f) Players are eligible to play in more than one format during the season.

#### **6. EMERGENCIES**

- a) Emergencies may be registered during the season as per 5b.
- b) Emergencies may not play below the Grade for which they are registered, unless by prior approval of the Executive.
- c) Emergencies may be granted up to three (3) match permits, in order to obtain an accurate grading.
- d) Emergencies will be ineligible to play in a lower section or grade after having played four (4) matches in a higher section or grade, without prior approval of the Executive.
- e) No Emergency may play in any final series match unless having played at least three (3) matches for their club in that category, (two (2) of which must be played prior to the last three (3) home and away matches) without prior approval of the Executive. (see By-Law 7d for determination of when a player is deemed to have played a match).
- f) Emergencies must not strengthen a team if the team thereby becomes too strong for the section concerned or if the playing of the emergency gives an unreasonable advantage or disadvantage to another team in that section. The background, metrics and criteria regarding emergency eligibility are as follows.

**An Emergency is defined as** – 'a registered player who is not listed on the official team entry form and who has played three(3) or less matches' (see By Law 7 d, for determination of when a player is deemed to have played a match) in any one team or remains as an emergency at the discretion of

the Executive if they have played four(4) or more matches in any one team. Teams are graded at the team entry stage.

Teams are graded based on the team list provided by clubs. Emergencies will be reviewed throughout the season based on the criteria below. The integrity of teams that have had their teams graded will not be penalised because a team plays an emergency that is too strong. 6 or 7 teams should not be penalised because a Club/Convenor wants to have an emergency play that is too strong for that section. The grading process will be a waste of time if clubs play players that strengthen their teams.

Under the definition of an emergency, an emergency will not be an eligible team player until approved by the Executive. Emergencies will be reviewed and approved regarding their eligibility based on the following criteria.

- a) If it can be proven that the player, they have replaced has equal or a greater winning percentage than the emergency replacing them.
- b) The player is an emergency for Section 1 or the particular format.
- c) Where the format is aged based and not standard based. Eg JDC, JOD.

The following Emergency Metrics and Ineligibility criteria is used when determining if an emergency is strengthening the team.

- a) If an emergency player obtains a winning percentage greater than 150% after 3 or more completed matches as an emergency. An emergency player will be reviewed once they obtain a winning percentage greater than 150%. Note that the 150% threshold can be reached after 6 or 7 completed matches. The emergency will be reviewed on the same basis as if they reach 150% winning percentage after 3 completed matches. A player is deemed to be an emergency until eligibility approval has been provided by the Executive.
- b) An emergency can be reviewed and deemed ineligible after 3 completed matches if the emergency beats the best players in the section.
- c) It is likely an emergency player will be deemed ineligible after 3 or more completed matches if they have a winning percentage over 150% and have no player to compare their percentage against. Part of the review will determine if they have a winning percentage over 40% higher than the rest of the team's winning percentage where their own winning percentage is greater than 150%.
- d) A player added to a team after grading will remain as an emergency and will be reviewed under the same criteria regarding their eligibility.
- g) The following is required when adding an emergency for a team on the scorecard.
  - a) The emergency registration **MUST** be completed on the scorecard by the Home team Convenor and Supervising Away team parent (Juniors)/Away team Supervisor (Seniors) on the Emergency Registration section of the scorecard. Failure to do so means the card has not been completed correctly. Fines for incorrect scorecard completion are in place for **either** team not completing this section correctly.
  - b) The details of any emergency registration **MUST** be noted by the Home Convenor in the comments section when entering results online. This ensures the correct information is received and the Record Secretaries do not have to follow up information. This attracts a fine for non-completion of the scorecard. (See Appendix J)

## **7. ELIGIBILITY**

- a) All players must be: -
  - (i) Registered in accordance with by-law 5.
  - (ii) Financial members of their club in accordance with their own club's constitution.
- b) No player shall be listed to play in more than one match in the same round of the same competition as per By-Law 5(c). Matches shall be deemed to be played on the date of original fixture.
- c) A player having played four (4) matches in one team will not be eligible to play in any other team in that grade or section without prior approval of the Executive.
- d) A player shall be deemed to have participated in a match when:
  - 1) their name has been recorded on the official result card when a match has been played and completed,
  - 2) their name has been recorded on the official result card when a match has commenced but is unable to be completed due to unplayable conditions (see By-law 13) or
  - 3) their name has been recorded on the official result card when their team has received a win via a forfeit from the opposition.

A player will not be deemed to have played a match when their name has been recorded on the official result card but the match has been abandoned due to unplayable conditions (see By-law 13) before the commencement of the match. This applies for both team members and emergencies.

- e) If a team plays an ineligible player, that team will not score any Match points OR points for sets that the ineligible player played.
- f) Except with prior permission of the Executive a registered player may not play in a finals match unless having played at least three (3) matches for their club, in that section (see By-Law 7d for determination of when a player is deemed to have played a match).
- g) Players wishing to participate in Eastern Region Tennis squads and representative teams, must be a registered team member and have played four (4) or more matches in the current or one of the previous two seasons prior to the closure of nominations, unless prior permission is given by the Executive Committee.

## **8. TRANSFERS**

- a) When a Club approves an application for the clearance of a player, during the current season, notice shall be forwarded to the Secretary of the Association, signed by the Club President or Secretary. A copy of such notification shall be sent to the Secretary of the Club to which the player is transferring.
- b) No clearance shall be valid until confirmed, in writing by the Association, and sent to both Clubs.
- c) A player whose clearance application is not processed or rejected within 30 days, may appeal in writing to the Association Secretary. Such appeals must then be ruled upon by the Executive within 14 days and all parties advised, in writing, of the decision.

## **9. SUBSTITUTIONS**

- a) If in the event of a player becoming incapacitated whilst playing, the current rubber/set shall be forfeited to the opposing team. Games already scored shall count. A substitute may then play in the remaining rubbers/sets
- b) A substitute player must be registered with the Association in the appropriate category. (see by-laws 5/6).
- c) Any substitute must be ready to commence play at the beginning of the next set/rubber in which the injured sick player is scheduled to play as per listed order of play (unless by mutual agreement by both captains to vary the playing order). If not ready to commence play, all unplayed sets/rubbers relative to the substitute player shall be forfeited.
- d) Once a player has been substituted out, they cannot take any further part in the match. If a player plays in the match after being substituted out, all sets played by that player after re-entering the match will be lost to love.
